

ZBR Token – Whitepaper

A Community-Driven Meme Token on Binance Smart Chain

1. Introduction

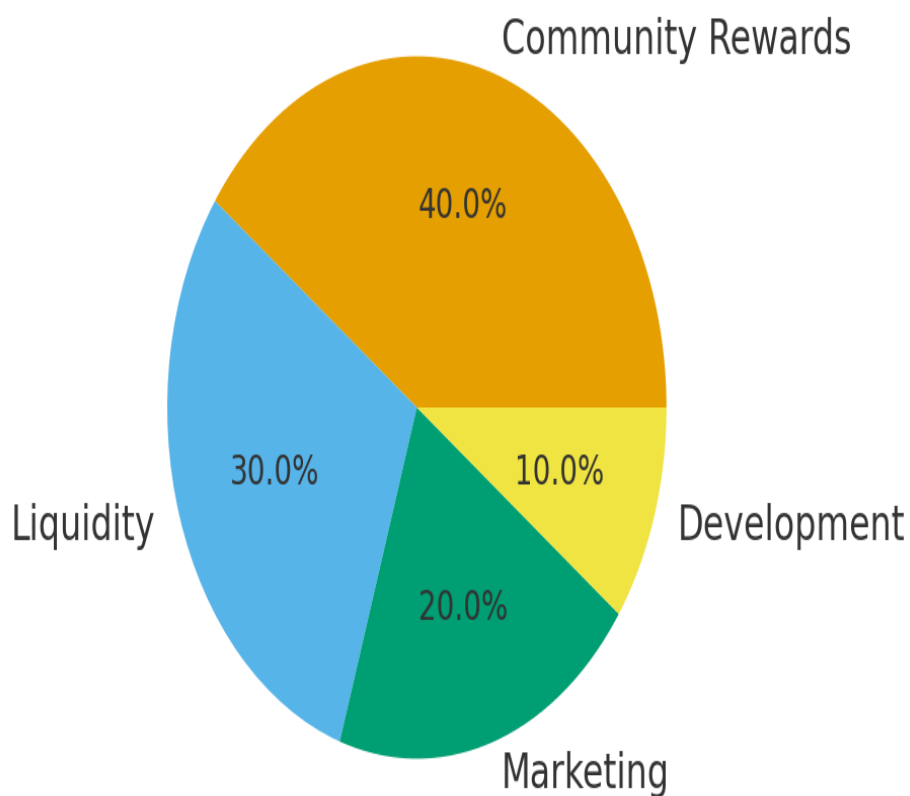

ZBR is a next-generation meme token built on Binance Smart Chain (BSC), designed to combine engaging branding, a gamified ecosystem, and full project transparency. The token aims to create a fun, rewarding, and community-first digital asset experience, supported by a growing ecosystem and strong visual identity featuring the ZBR Mascot.

2. Tokenomics

Total Supply: 1,000,000,000 ZBR

- Fair-launch token with no presale and no private sale
- Liquidity locked for long-term protection
- Ownership renounced to ensure full decentralization

Below is the current token distribution model:

3. Utilities

ZBR aims to build a dynamic utility ecosystem including:

- Community Rewards – giveaways, airdrops, and social missions
- Gamified Ecosystem – mini-games, on-chain challenges, NFT integrations
- Branding & Mascot Expansion – merchandise, collectibles, and animations
- Staking & Ecosystem Use-Cases – future passive income features

4. Roadmap

Phase 1 – Launch & Branding:

- Token deployment
- Website launch
- Mascot and brand identity creation

Phase 2 – Expansion:

- Listings (DEX Tools, CMC, CG)
- Marketing collaborations
- Mini-games development

Phase 3 – Utility Growth:

- Staking platform
- NFT integrations
- Community governance system
